Message from the Director

I am pleased to present you with the Fiscal Year 1998 program announcement of the State Justice Statistics (SJS) Program for Statistical Analysis Centers. This announcement clarifies and refines the SJS program, first announced last year, and presents the themes to be considered by SACs as they prepare applications for this year's funding cycle.

The themes selected for the SJS program each year enable SACs to apply for Federal funding that we hope will fit in with their State's interests and priorities. The themes also guide the formulation of topics of the annual conference co-sponsored by the Justice Research and Statistics Association (JRSA) and the Bureau of Justice Statistics (BJS).

The BJS staff have been very pleased with the fascinating and well-conceived proposals that have been received in response to last year's State Justice Statistics solicitation, and we look forward to hearing and reading the results of the funded projects. This year the themes include some old friends from last year and also new themes that have received attention in Congress and by the President.

This year's solicitation clearly demonstrates continued and strengthened support by the Office of Juvenile Justice and Delinquency Prevention (OJJDP) for this program. Last year, the deserving proposals submitted in response to themes that carried supplemental OJJDP funding exceeded the amount of funding that OJJDP contributed to the solicitation, so BJS is truly a partner with OJJDP in supporting these SACs' research efforts devoted to reduction of juvenile crime.

We have also simplified, as compared to last year, the procedures for transferring funds to SACs whose applications cover multiple topics from multiple funding streams. SACs that have recently received SJS funding for last year's topics should note that they are also eligible immediately to apply for funding related to new themes in this solicitation.

As always, I welcome your comments and suggestions about how to make this a better and more effective program.

Fiscal Year 1998 Application Guidelines

A. Purpose

This program announcement describes the guidelines and requirements of the Fiscal Year 1998 State Justice Statistics (SJS) Program for Statistical Analysis Centers (SACs). The SJS Program, first announced in Federal Fiscal Year 1997, supplants the State-Level Statistical Analysis Centers and Information Network Program. Since 1972, the Bureau of Justice Statistics (BJS) and its predecessor agency, the National Criminal Justice Information and Statistics Service, have provided partial support to State governments for the establishment and operation of Statistical Analysis Centers (SACs) to collect, analyze, and report statistics on crime and justice to Federal, State, and local levels of government, and to share State-level information nationally. The information produced by SACs and their involvement in criminal justice projects has been and will continue to be critical to State, local, and Federal criminal justice agencies and community organizations in their efforts to combat drugs and crime and to improve the administration of justice.

This SJS Program is a shift from SAC support funded exclusively by BJS to a coordinated solicitation involving other Office of Justice Programs (OJP) agencies. During the first year of the SJS Program we were pleased to have as a partner the Office of Juvenile Justice and Delinquency Prevention (OJJDP), which again this year has agreed to fund projects which examine critical juvenile justice issues.

BJS also administers the National Criminal History Improvement Program (NCHIP), which implements the grant provisions of the Brady Handgun Violence Prevention Act, the National Child Protection Act of 1993, the Stalker and Domestic Violence Reduction provisions of the Violence Against Women Act, and related legislation. In each State, a single agency has been designated by the governor to coordinate the State's NCHIP applications, but BJS has encouraged SAC directors to contact their State NCHIP administrator so as to participate in their State's application for NCHIP funds, and NCHIP administrators were asked to demonstrate that they had coordinated requests related to statistical analyses with their State's SAC. Ongoing efforts to evaluate or monitor progress in meeting legislative or program goals through statistical or other related means have been allowed activities for SAC funding under BJS grants to NCHIP agencies, and specific SAC research studies relating to use of handguns are also being funded separately under NCHIP.

In Fiscal Year 1998, the National Sex Offender Registry Assistance Program (NSOR-AP) is an additional component of NCHIP. NSOR-AP supports the President's goals of establishing an effective national registry of sex offenders. This registry, to be operated and maintained by the Federal Bureau of Investigation (FBI), will depend upon the States' ability to contribute to the FBI accurate and timely data about convicted sex offenders. Applicants who choose Theme

98A (described below) are eligible for supplemental funding if their work is related to their State's sex offender registry or to issues of sharing sex offender registration information between states.

BJS's goal is to maintain and enhance each State's capacity to address criminal justice issues through collection and analysis of data. The State Justice Statistics program simplifies the process by which SACs can obtain funding, possibly in partnership with other agencies, from the full spectrum of funding available through BJS and other components of the Office of Justice Programs that pass funds to BJS to enhance the SJS program. Examples included in this announcement are the OJJDP-supported themes described in Section F. BJS also continues to support those SACs located in States with a Safe Kids-Safe Streets program, administered by OJJDP, the Weed and Seed Office, and the Violence Against Women Act grant office.

B. Direction

The State Justice Statistics (SJS) Program for Statistical Analysis Centers is oriented around issues and products. Each application for funding under this program must identify the participating organizations in the State and the particular issues to be addressed. Each year, BJS announces specific topics and products it is encouraging (Section F, below) and asks applicants to give careful consideration to planning activities that fit within one or more of the designated topics. If a SAC does not feel that any of the topics is relevant to its own State, it may identify a topic or statistical activity of critical importance to its jurisdiction.

The SJS program themes are selected jointly by BJS and Justice Research and Statistics Association (JRSA) staff and selected SAC Directors as reflective of issues of current concern and significance to criminal justice practitioners. JRSA will also play a lead role in publishing a report based on a compilation of state reports on one of the selected themes, which will be highlighted in each announcement.

BJS recognizes the value and importance of clearinghouse activities historically exercised by the SACs and continues to support collection of statistical data and publication of statistical reports on general topics related to crime or the administration of justice.

C. Background

In the United States, most criminal justice activities take place at State and local levels of government. The systematic collection and analysis of data on these activities enable BJS to comply with its charter to publish and disseminate statistical information on crime and the operation of justice systems, giving emphasis to State and local justice system needs. State and local governments use the data for policy analysis, planning, and conducting their justice system operations and evaluations.

BJS is specifically authorized by statute (42 U.S.C. 3732) to provide assistance in the development of State and local government justice information systems, and directed to give primary emphasis to the problems of State and local justice systems (42 U.S.C. 3731). BJS works in cooperation with the States through a network of SACs. These Centers were established with support from

BJS and its predecessor agency, the National Criminal Justice Information and Statistics Service (NCJISS). Currently, there are SACs in 47 States, the District of Columbia, Puerto Rico, and the Northern Mariana Islands.

1. Goals

- Enhance the capabilities of the States to collect, analyze, and interpret data on justice issues relevant to the States and the Nation;
- Make maximum use of State statistical organizations and State-level data collected by BJS and other Department of Justice components;
- Provide a mechanism which supports the collection and sharing of vital justice system data among the States and between the States and the Federal Government; and
- Better serve the information needs of the States and Federal Government by providing a core body of knowledge about the administration of criminal justice in each State.

2. Objectives

Provide support to the SACs to:

- participate in projects whose research, data collection, and analysis is coordinated across states and which results in a publication by JRSA. This theme will normally be of significant interest to policy makers, and the results of analysis done on this theme should support their efforts.

- produce statistical reports on crime, criminal offenders, and the justice system;
- develop improved justice statistical and information systems and maintain data service functions in the State; and
- support BJS data gathering efforts in individual States including statistics needed for all national data series and in support of NCHIP and NCHIP-related topics.

D. Program Strategy

The SJS program is designed to provide financial support which will supplement State funding of the SAC and will support activities for both State and national benefit, as well as provide technical and financial assistance for related research and data collection projects. SACs are strongly encouraged to produce and provide to BJS written products reflecting analytical efforts undertaken as a part of this program, and to document their plans for such publications in the application for funding under this program.

BJS guidelines for the NCHIP grant program recommend that the State agency applying for these funds consult the SAC in conjunction with the development of projects to support the monitoring of State compliance with legislative or programmatic goals of the program. BJS encourages SACs to support such NCHIP activities; in addition, SACs should explore funding opportunities associated with monies coming into their State from other components of the Office of Justice Programs.

To ensure that the SAC national program efficiently meets its objectives, recipients of BJS funds must agree to assist in any evaluation and/or assessment efforts associated with this program. Such evaluation activities should not result in any significant or unreasonable costs or burdens to the SACs that would interfere with the performance of the cooperative agreement.

E. Support to Established SACs

All awards will be made as cooperative agreements to a Statistical Analysis Center and will indicate the substantial involvement that BJS will have with each award.

Applicants may transfer funds to other organizations listed in their application; some of the theme activities may require such cooperative arrangements. Where SACs do not have authority for such a transfer of funds, applicants should contact their BJS state monitor for advice; the purpose of this requirement is to foster cooperation within the State among agencies working on related BJS- or OJP-funded activities, and BJS does not want to foster cumbersome administrative arrangements. Activities in the SJS program include:

1. Collecting, analyzing, and publishing criminal justice data, including activities related to the analysis or evaluation of State efforts under the NCHIP;
2. Conducting research on themes identified in Section F of this announcement or selected by the applicant in consultation with BJS, usually about a topic of current or emerging national concern;

3. Providing JRSA with data on highlighted themes for compilation and production of a national report;
4. Maintaining contact with BJS to ensure the efficient development and sharing of information with BJS, other States, and various users;
5. Informing BJS of the State's needs relative to statistical data;
6. Pursuant to BJS request, providing information and automated data to the Justice Research and Statistics Association (JRSA), the National Archive of Criminal Justice Data, or other designated recipients;
7. Establishing and maintaining contacts with State criminal justice agencies, the courts, and local governments and their criminal justice agencies;
8. Assisting criminal justice agencies in defining their needs for specific statistical and other information for the planning, implementation, and evaluation of criminal justice programs;
9. Providing technical assistance in the collection, interpretation, utilization, and sharing of statistical information.

Travel funds for this program should be used primarily for such activities within the State as data collection, providing technical assistance and training, liaison with other criminal justice agencies, and conducting statistical analysis. Travel to attend the annual Bureau of Justice Statistics

(BJS)/Justice Research and Statistics Association (JRSA) national conference is limited to one person each year, unless BJS specifically authorizes additional conference travel.

Because of the limited funds available for each State, the use of program funds for indirect costs is discouraged. All grant funds should be used to achieve specific program objectives.

F. Themes for the Fiscal Year 1998 SJS Cycle

SACs applying for funds under this announcement may choose from among the themes listed below. Applicants may choose any number of projects from within one theme (unless otherwise specified), or a combination of projects from more than one theme. It is recommended that not more than three topics be selected for a given project period. If a SAC chooses its own theme, it must provide persuasive documentation from its advisory committee, one or more branches of State government, or some other entity which explains and supports the decision to study this topic.

With relation to any theme or topic proposed for funding, please indicate the background of your state's concern with the issue, a complete explanation of the methodology to be employed including databases and methods of analysis, any participation by other state agencies, and how conclusions and recommendations will be framed. Also, indicate political constraints (if any) which could impact the research, and what product will result. Since BJS contemplates that JRSA will assemble national reports where

several states have addressed the same topic, we will support efforts to improve the quality of such compilations through coordination of the individual states' research and analysis.

Themes will be revised each year with the issuance of the new fiscal year program announcement. In some instances, the revised list of themes may be mailed to SACs and other participating agencies separately in advance of the release of the program announcement. The new list will also be posted to the BJS World Wide Web site on the Internet (www.ojp.usdoj.gov/bjs/), so SACs with access to the Internet can learn of them in that manner as well.

As other OJP budget and priority developments evolve, additional funding may be available for one or more of the theme topics. The first theme in each funding cycle's list is BJS's highlighted topic for the fiscal year; we strongly urge each state to consider this theme since BJS will be making extra efforts to generate a nationally visible document based on it. If you choose the highlighted topic and it carries additional funding, we suggest that you contact your BJS program manager for additional guidance before submitting an application.

These are the themes/topics applicable to Fiscal Year 1998 of the SJS Program:

98A. Domestic and sexual violence data collection and analysis, including victims and offenders, the impact of arrest and arrest policies, prosecution and sentencing policies, related patterns and trends.

Supplemental funding will be available for studies based on records/information contained in Sex Offender Registries, which

can include the identification of the characteristics of sexual predators, patterns of recidivism, issues of offender mobility, especially across state boundaries, and analysis of sexual offender community notification systems. Applications choosing this topic are eligible for funding other than the otherwise normal award amount and must show separately the budgeted expenditures for this task. At most one topic may be proposed in this topic area. The application must either state that the applicant is also the State's administrator of NSOR-AP funds or include a letter or memorandum of endorsement from the State agency administering NSOR-AP funds.

98B. Analysis of criminal history records (such as for patterns of criminal behavior or stalking), offender tracking/system flow studies, evaluation or review of the State's criminal history record improvement activities, or studies related to handgun use. Applications choosing this topic are eligible for funding higher than the otherwise normal award amount and must show separately the budgeted expenditures for this item. At most one topic may be proposed in this topic area. The application must either state that the applicant is also the State's administrator of NCHIP funds or include a letter or memorandum of endorsement from the State agency administering NCHIP funds.

98C. Drug control and drug abuse monitoring and studies related to drug abuse monitoring, studies related to the relationship between drugs and violent crime, gun use by offenders under the influence of drugs, driving under the influence of drugs, (licit or illicit), drug courts, treatment, and evaluation of drug control programs and strategies.

98D. Juvenile justice studies, research, analysis and evaluation related to the provisions of the Juvenile Accountability Incentive Block Grants (JAIBG). (For a complete description of this program, please refer to the Office of Juvenile Justice and Delinquency Prevention's web site at <http://www.ncjrs.org/ojjhome.htm> on the grants and funding page.) Projects conducted under this theme may relate to a State's certification that it is considering legislation, policies, or practices that would qualify it for the block grant, and/or to the twelve Program Purpose Areas listed below for promoting juvenile accountability. SACs can submit applications to undertake one or more studies related to eligibility for grants or the twelve study areas. Each SAC is limited to \$50,000 in additional funding (for example, one study for \$50,000 or three studies at \$16,666 each.) These projects must be budgeted separately in the application.

A. Topics related to State's certification for JAIBG grants

(1) States must consider legislation, policies or practices to ensure that juveniles who commit an act after attaining 15 years of age that would be a serious violent crime if committed by an adult are treated as adults for purposes of prosecution as a matter of law or that the prosecutor has the authority to do determine whether to prosecute such juveniles as adults.

(2) States must consider legislation, policies or practices that impose sanctions on juvenile offenders for every delinquent or criminal act, or violation of probation, ensuring that such sanctions escalate in

severity with each subsequent, more serious delinquent or criminal act, or violation of probation including such accountability-based sanctions as restitution, community service, punishment imposed by community accountability councils comprising individuals from the offender's and victim's communities, fines and short-term confinement.

(3) States must consider legislation, policies or practices to establish, at a minimum, a system of records relating to any adjudication of a juvenile who has a prior delinquency adjudication and who is adjudicated delinquent that, if committed by an adult, would constitute a felony under Federal or State law, which is a system equivalent to maintained for adults who commit felonies under Federal or State law. States must also consider making such records available to the Federal Bureau of Investigation (FBI) in a manner equivalent to adult records.

(4) States must consider legislation, policies or practices to ensure that State law does not prevent a juvenile court judge from issuing a court order against a parent, guardian, or custodian of a juvenile offender regarding the supervision of such an offender and from imposing sanctions for a violation of such an order.

(5) A State or unit of local government must have implemented, or agree to implement by January 1, 1999, a policy of testing appropriate categories of juveniles with the juvenile justice system for use of controlled substance. The categories of juveniles that are appropriate

for testing shall be determined by the Chief Executive Office of the State certifying compliance or by the applicant unit of local government.

B. Topics Related to JAIBG Program Purpose Areas

(1) Building, expanding , renovating, or operating temporary or permanent juvenile correction or detention facilities, including training of correctional personnel;

(2) Developing and administering accountability-based sanctions for juvenile offenders;

(3) Hiring additional juvenile judges, probation officers, and court-appointed defenders, and funding pre-trial services for juveniles, to ensure the smooth and expeditious administration of the juvenile justice system;

(4) Hiring additional prosecutors, so that more cases involving violent juvenile offenders can be prosecuted and backlogs reduced;

(5) Providing funding to enable prosecutors to address drug, gang, and youth violence problems more effectively;

(6) Providing funding for technology, equipment, and training to assist prosecutors in identifying and expediting the prosecution of violent juvenile offenders;

(7) Providing funding to enable juvenile courts and juvenile probation officers to be more effective and efficient in holding

- juvenile offenders accountable and reducing recidivism;
- (8) The establishment of court-based juvenile justice programs that target young firearms offenders through the establishment of juvenile gun courts for the adjudication and prosecution of juvenile firearms offenders;
- (9) The establishment of drug court programs for juveniles so as to provide continuing judicial supervision over juvenile offenders with substance abuse problems and to provide the integrated administration of other sanctions and services;
- (10) Establishing and maintaining interagency information-sharing programs that enable the juvenile and criminal justice system, schools, and social services agencies to make more informed decisions regarding the early identification , control, supervision, and treatment of juveniles who repeatedly commit serious delinquent or criminal acts;
- (11) Establishing and maintaining accountability-based programs that work with juvenile offenders who are referred by law enforcement agencies, or which are designed, in cooperation with law enforcement officials, to protect students and school personnel from drug, gang and youth violence; and
- (12) Implementing a policy of controlled substance testing for appropriate categories of juveniles within the juvenile justice system.

98E. Internet infrastructure development and linkages, including building a World Wide Web page, computer support, and preparing reports for dissemination via the Internet. Applicants may select an existing Internet server as the location for their site; if such an arrangement is impractical, applicants should contact BJS and JRSA in preparing their applications so that appropriate Internet site locations can be made available to SACs.

98F. Research using incident-based crime data that are compatible with the National Incident-Based Reporting System.

98G. Corrections studies related to changing sentencing policies, including risk assessment, performance measures, truth in sentencing, and population analysis or projections. Applications including this theme must include documentation demonstrating support and/or cooperation of the State agency that administers grants from the Office of Justice Programs' Corrections Program Office.

98H. Any theme or topic that is identified by the SAC applicant and is accompanied by persuasive documentation and justification that the subject is a top priority for the state's Governor or criminal justice policy officials.

G. Eligibility Requirements

The applicant SAC must be authorized by State legislation or executive order. The SAC must be a nonpartisan professional organization which serves all branches of the criminal justice system and all levels of

government in the State as well as the general public. Objectivity, independence, and visibility are important considerations in determining its placement in the State government. It is desirable that the SAC not be part of an agency that has line responsibilities in criminal justice programs; if the SAC is located in such an agency, special provisions must be made to ensure the SAC's broad mission, objectivity, independence, and visibility. These provisions must be documented in each application for funding. Examples of such provisions are letters of agreement from agencies that deal with other aspects of criminal justice in the State, or a SAC advisory board that includes policy-level officials of such agencies. The SAC must inform BJS of any substantive changes in these provisions, such as changes in the advisory board's structure or revisions in the scope of letters of agreement.

Applications for SAC funding must contain an explanation of the placement of the SAC within the State organization structure, including the SAC's relationship to the Governor's Office, to other relevant State agencies, and any other organizations included as recipients of funds in the application.

The SAC must be staffed by professionals skilled in the statistical treatment of data for policy analyses and familiar with the factors, issues, and processes involved in crime and the criminal justice system. Each application must identify the SAC director and other key personnel and must provide brief summaries of their qualifications. However, a duplicate qualification summary need not be provided if it was submitted as part of an earlier application. In the case of vacant positions,

job descriptions must be provided. If the SAC directorship becomes vacant after an award is made, the recipient agency must notify BJS, and submit the position description and required qualifications to be used in recruiting a replacement. When a replacement is designated, a resume of the individual's qualifications must be submitted to BJS for approval.

State Statistical Analysis Centers are the only entities eligible to apply for funds under the SJS program. General applicants must meet the requirements for a SAC as specified in these Guidelines. The *Catalog of Federal Domestic Assistance* (CFDA) number for the SAC program is 16.550 (Criminal Justice Statistics Development).

It is permissible for some or all of the work to be performed under the SAC's overall direction by other persons or organizations, such as other State agencies, universities, nonprofit research firms, and private consultants. If work will be performed outside of the SAC, the application must include the qualifications of those performing the work. SACs that wish to apply for funds in cooperation with another organization but lack the authority to transfer funds to the cooperating organization should contact their BJS state monitor.

H. Selection Criteria

In making decisions to award funds under this program, BJS will be the sole judge of whether the application meets program requirements and whether it is operating satisfactorily and conforms to all applicable Federal and State requirements. The amount of the award will be based on the strength of

the justification for what it is seeking to do and accomplish during the award period. Final authority on funding decisions is vested in the Director of BJS. Each application should contain a statement of the intended project's goals and objectives; the proposed strategy for achieving them, including anticipated products; and an evaluation of the project.

The criteria for review and selection include:

1. Applications should be written so that each task or activity is costed separately and in priority order. Applicants are encouraged to attach a product to each task, such as a report or publication.
2. Organizational integrity, technical competence, and organizational placement of the applicant and other organizations proposed for funding;
3. Experience of applicant's personnel in similar work;
4. Technical soundness and completeness of the proposed approach;
5. Appropriateness of the project schedule and budget; and
6. Past record of applicant's performance with previous awards, including quality of work, completeness, and adherence to schedules.
7. The extent to which the program narrative addresses specific objectives of the SJS program, and the dollar resources needed to achieve them.

I. Award Period

Awards made under this announcement will be in the form of a cooperative agreement. Awards normally will be for twelve months, but can be longer if the applicant chooses.

No-cost extensions may be granted by BJS for good cause (for example, under-spending due to an unavoidable staff vacancy). Extensions should be requested in writing at least 30 days in advance of the award's scheduled expiration date; requests that are received later may not be approved. BJS will not approve any extension of more than 1 year beyond the original expiration date of the award.

J. Award Amount

No minimum or maximum amount is established for an award. While the amount of past SAC awards may be used as a guide when preparing the application, sufficiently strong justification of tasks and activities could result in an award greater than that in the past; a weak justification may result in a smaller award. Each award is intended to supplement State financial support of the SAC.

K. When to Apply

Applications should be submitted to BJS at least 90 days before the requested starting date for the initial award to a SAC applying under this guideline. For funding in FY 1998, applications should be received by BJS ***no later than*** June 30, 1998. Applications

received after June 30th may be deferred until the next fiscal year, beginning October 1, 1998.

A SAC may apply for funding at any time for a theme which carries additional dollar resources if, at the time it submitted its normal annual application, that theme had not been identified as such. This means, for example, that a SAC which submitted its application prior to the issuing of this announcement and now wants to pursue activities related to Themes 98A or 98D, may apply for a supplemental award up until such time as a new announcement is released.

Applicants should also review the instructions for certification included in the regulations before completing this form. Signature of this form provides for compliance with certification requirements under 28 CFR Part 69, "New Restrictions on Lobbying," and 28 CFR Part 67, "Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-Free Workplace (Grants)." The certifications shall be treated as a material representation of fact upon which reliance will be placed when the U.S. Department of Justice determines to award the covered transaction, grant, or cooperative agreement.

Financial and Administrative Requirements

Discretionary grants are governed by the provisions of OMB Circulars applicable to financial assistance. The circulars, in addition to the information and guidance in "OJP Financial Guide", are available from the Office of Justice Programs. This guideline manual, provided upon request, is intended to assist grantees in the administration of funds and includes information on allowable costs, methods of payment, audit requirements, accounting systems, and financial records.

Complete and accurate information is required relative to the application, expenditure of funds, and program performance. The consequences of failure to comply with program guidelines and requirements will be determined at

the discretion of the Department of Justice.

Civil Rights Obligations

All applicants for Federal financial assistance must sign Certified Assurances that they are in compliance with the Federal laws and regulations which prohibit discrimination in any program or activity that receives such Federal funds. Section 809(c), Omnibus Crime Control & Safe Streets Act of 1968, 42 U.S.C. 3789d, provides that:

No person in any State shall on the ground of race, color, religion, national origin, sex [or disability]* be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, or denied employment in connection with any program or activity funded in whole or in part with funds made available under this title.

* Section 504 of the Rehabilitation Act of 1973, and Title II of the Americans With Disabilities Act prohibit identical discrimination on the basis of disability.

The applicant agency must discuss how it will ensure nondiscriminatory practices as they relate to:

(1) Delivery of Services or Benefits--to ensure that individuals will not be denied access to services or benefits under the program or activity on the basis of race, color, religion, national origin, gender, age, or disability;

(2) Employment Practices--to ensure that its personnel in the program or activity are selected for employment without regard to race, color, religion, national origin, gender, age, or disability; and

(3) Program Participation--to ensure members of any planning, steering or advisory board, which is an integral part of the program or activity, are not excluded from participation on the basis of race, color, religion, national origin, gender, age or disability; and to encourage the selection of such members who are reflective of the diversity in the community to be served.

Audit Requirement

State and Local Governments and Non-Profit Organizations are now governed by OMB Circular A-133, titled "Audits of States, Local Governments and Non-Profit Organizations." In July 1996, the President signed an amendment to the Single Audit Act of 1984 which

(1) mandates one audit circular for both State and local governments, institutions of higher education, and other non-profit organizations;
(2) raises the audit threshold for all entities to \$300,000 of federal funds **expended** (this requirement is effective for audits conducted for fiscal years beginning on or after **July 1, 1996**); and
(3) requires the submission of the audit report within nine (9) months from the end of the audit cycle (this requirement is effective for audits conducted for fiscal years beginning on or after **July 1, 1998**).

Disclosure of Federal Participation

Section 8136 of the Department of Defense Appropriations Act (Stevens Amendment), enacted in October 1988, requires that, "when issuing statements, press releases for proposals, bid solicitations, and other documents describing projects or programs funded in whole or in part with Federal money, all grantees receiving Federal funds, including but not limited to State and local governments, shall clearly state (1) the percentage of the total cost of the program or project which will be financed with Federal money, and (2) the dollar amount of Federal funds for the project or program."

review period will begin on the date that the letter or application is officially received by BJS. If BJS does not receive comments from the State's "single point of contact" by the end of the review period, this will be interpreted as a "no comment" response.

If the State has not established a "single point of contact," or if it has not selected the BJS statistics development or criminal history improvement programs in its review process, this must be stated in the letter or application.

Intergovernmental Review of Federal Programs

Federal Executive Order 12372, "Intergovernmental Review of Federal Programs," allows States to establish a process for reviewing Federal programs in the State, to choose which programs they wish to review, to conduct such reviews, and to make their views known to the funding Federal agency through a State "single point of contact."

If the State has established a "single point of contact," and if the State has selected this program to be included in its review process, the applicant must send a copy of its letter or application to the State "single point of contact" at the same time that it is submitted to BJS. The letter or application submitted to BJS must indicate that this has been done. The State must complete its review within 60 days. The

Item	Instructions
1	Type of Submission: If this proposal is not for construction or building purposes, check “Non-Construction”.
2	Date Submitted: Indicate the date you sent the application to OJP. The “Application Identifier” is the number assigned by your jurisdiction, if any. If your jurisdiction does not assign an identifier number, leave this space blank.
3	Date Received by State: Leave blank. This block is completed by the State single point of contact, if applicable.
4	Date Received by Federal Agency: This item will be completed by OJP.
5	Applicant Information: The “Legal Name” is the unit of government of the parent organization. For example, the primary or parent organization of a law enforcement agency is the name of the city or township. Thus the city or township should be entered into the Legal Name box and the name of the law enforcement agency would be entered into the Organizational Unit box. Designate one person as the contact, and include their telephone number.
6	Employer Identification Number: Each employer receives an employer identification number from the Internal Revenue Service. Generally, this number can be easily obtained from your agency’s accountant or comptroller.
7	Type of Applicant: Enter the appropriate letter in this space. If the applicant is representing a consortium of agencies, specify by checking Block N and entering “consortium”.
8	Type of Application: Check either “new” or “continuation”. Check new if this will be your first award for this purpose described in the application, even if the applicant has received prior awards for other purposes. Check “continuation”, if the project will continue activities of a project, that was begun under a prior award.
9	Name of Federal Agency: Type in the name of the awarding agency, such as “Bureau of Justice Assistance”.
10	Catalog of Federal Domestic Assistance Number: This would be contained in the program announcement. An example would be 16._____.
11	Descriptive Title of Applicants Project: Type in the: (1) title of the program as it appears in the solicitation or announcement; (2) name of the cognizant Federal agency, ex. U. S. Department of Education; and (3) applicant’s fiscal year, i.e. twelve month audit period, ex: 10/1/95 - 9/30/96.
12	Areas Affected by Project: Identify the geographic area(s) of the project. Indicate “Statewide” or “National”, if applicable.
13	Proposed Project Dates: Fill in the proposed begin and end dates of the project.
14	Congressional Districts: Fill in the Congressional Districts in which the project will be located as well as the Congressional District(s) the project will serve. Indicate “Statewide” or “National”, if applicable.
15	Estimated Funding: In line “a,” enter the Federal funds requested, not to exceed the dollar amount allocated in the program announcement. Indicate any other resources that will available to the project and the source of those funds on lines “b-f,” as appropriate.
16	State Executive Order 12372: Some states require you to submit your application to a State “Single Point of Contact” (SPOC) to coordinate applications for Federal funds. If your State requires a copy of your application, indicate the date submitted. If a copy is not required, indicate the reason. (Refer to the “Administrative Requirements” section of the program announcement, for more information.) The SPOC is not responsible for forwarding your application.
17	Delinquent Federal Debt: This question applies to the applicant organization. Categories of debt include delinquent audit allowances, loans, and taxes.
18	Authorized Representative: Type the name of the person legally authorized to enter into agreements on behalf of your agency. This signature on the original application must be signed in blue ink and/or stamped as “original” to help identify the original.
